Upper Ogmore Gird Connection
Our Ref: UK0028130.1329
4 April 2025

Dear Sir/Madam,

**Upper Ogmore Grid Connection
Submission of a Scoping Report for a Development of National Significance**

Please find attached a copy of the Applicant's (National Grid) Scoping Report for the above Project. I also attach a plan showing the route of the connection.

The Project will comprise of both 66 kilovolt (kV) overhead lines (OHL) and underground cables (UGC) which will provide a connection between the Upper Ogmore Wind Farm and the wider national grid. The Project is mainly located within Bridgend County Borough Council (BCBC) but a small section passes through the southern extent of the Neath Port Talbot County Borough Council (NPTCBC) (see Figure 2.1 titled "Site Context with council boundaries"). We also attach a separate Site Location plan (Figure 1.1)

I trust that the information contained within the document provides sufficient detail for an opinion on the scope of the EIA to be confirmed. Should PEDW have any questions or wish to seek further clarity on the scope, in advance of formulating its response, please do not hesitate to contact me.

Yours faithfully

Edward Purnell
Associate
