Re: TPO Application – Works to Trees T4 & T5
Address: 1A Bryngelli, Pencynor, Neath SA10 8LF

Dear Tree Officer,

I am writing on behalf of the property owner Gary Davies, to support an application for tree works to two protected trees, referenced as T4 and T5 at the above address.

Both trees are located in close proximity to the domestic property and have developed fungal fruiting bodies at their bases. In addition, the removal of several large neighbouring trees has left them newly exposed to prevailing weather, increasing wind-loading and the potential for structural failure. These combined factors now present a safety concern to the adjacent dwelling and occupants.

To address this, we are proposing either full removal of T4 and T5, or, if deemed acceptable, significant crown reduction to mitigate the risk while retaining the trees where possible. All proposed works will be undertaken in accordance with BS3998:2010 – Tree Work: Recommendations by qualified arborists, ensuring best practice for safety and tree care.

Please contact me if you require any further details or a site inspection to support assessment of this application.

Yours faithfully,
Kat Ridgway
Arborist – Ridgway Trees

TOTAL	GBP £0.00
-------	-----------

Work completion dates - to be discussed.

The sum of this quote includes all necessary equipment, materials and labour.

Ecological Considerations: Tree work can proceed if there is no TPO, SSSI designation or the correct permissions have been obtained. Under the Wildlife and Countryside Act 1981, it is illegal to disturb nesting birds (March - August). While an ecologist is not a legal requirement, a thorough pre-work check will be conducted. If active nests are found, work could be delayed to seek ecological advice.

Liability and Insurance: We are fully insured for all aspects of tree removal work. In the event of any damage to your property, we will take responsibility and cover any necessary repairs. Our team adheres to all health and safety regulations to ensure the safety of everyone on site. If you have concerns about insurance or liability, please contact us before the job begins.

Health and Safety: All work will follow current safety regulations and best practices for tree removal. Proper Personal Protective Equipment will be used at all times. Site safety protocols will be followed due to proximity to private property.

Terms and Conditions:
1. Payment terms: Full payment due upon completion of the job.
2. Cancellation Policy: Cancellations made less than 48 hours before the scheduled start date will incur a cancellation fee of 20% of the total quoted price due to the resources and time reserved for the job. By confirming this quote, you acknowledge and agree to the terms and conditions outlined, including scope of work, total cost and cancellation policy.

Thank you 🌳
