

PLANNING STATEMENT COEDFFRANC PRIMARY SCHOOL STAFF CAR PARK

Following the demolition of the old Kitchen and Canteen Block after the construction of the new Kitchen and Canteen block, the area was chosen to move the existing staff car park from next to the Infant Block to the now vacant space.

The new car park accessed of the internal road through the school is nearer the vehicular entrance from Heol Hen/Old Road which is the main vehicular entrance for all traffic, by reducing the possible interaction of vehicles and pupils the safeguarding of the area is much improved.

The existing car parking area would then be returned to be used as playground for the children.

The carpark would be used by only staff and would not be used as a drop off for Parents and children.

Area currently used for staff carparking to be converted back to playground.

Existing kitchen block now demolished is the proposed staff parking area.
