

General Notes: This drawing is for use on this site only unless contractually stated otherwise. **DO NOT SCALE** this drawing (printed or electronic versions). Contractors must check all dimensions from site. Discrepancies and/or ambiguities within this drawing, between it and information given elsewhere, must be reported immediately to the architect for clarification before proceeding. Unless specifically contracted to the contrary, all information on these drawings and associated specifications are design intent only. Final construction/proposals should be agreed between the client, competent contractor and any relevant statutory authorities/suppliers.:

KEY

Dotted orange line illustrates the location of the proposed herras fencing

Tree Protection Barrier Detail

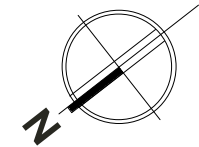

1.8-2.0m 'Heras' security panels

300mm below ground

Ground level

1.8-2.0m 'Heras' panels held in place by verticle scaffold posts set 300mm into the ground. Angled struts to be held in place with ground anchor pegs also set 300mm into the ground.

This barrier detail is the lightest tree protection specification and is suitable for use in very low pressure areas where there is no construction activity
